

iStock & Getty Images API Integration Information

iStock
by Getty Images™

In an ongoing effort to provide the highest-quality images, videos, illustrations, and graphics, iStock and Getty Images are offering API (application programming interface) capabilities to affiliates so that you can easily promote by using all of our content.

The API allows partners to host customized images through a widget on their own websites. Our RESTful APIs are supported with technical documentation and sample code, so you can get up and running quickly.

925079904, VictoriaBee

What you'll gain:

- Access to the world's most moving, premium images and videos
- Relevant, premium content to compliment your own on-site offering
- Opportunity to earn above baseline commissions and access to alternative revenue options
- Two great options to integrate with us

For examples of how current partners are integrating the API, scroll to the end of the doc for screenshots.

Two ways to work with us

We understand that different sites have different requirements, so we have two great options for partners to choose from:

- **API widget**

Our API widget provides you with a quick and simple way to add a strip of iStock photos or vectors to your site.

The widget handles calls to the Getty Images/iStock API and automatically adds your affiliate information to all links back to the iStock website

- **Full API integration**

We have two search API endpoints that are specific to the needs of our affiliate partners. These endpoints are optimized for speed and ease of use, providing you with just the right amount of metadata needed to add image and video search results to your site. Unlike the widget, you'll need to add your affiliate ID to the destination URL per the instructions from Impact Radius, our affiliate management partner. However, this option allows more flexibility in customization of the API. (e.g. the display size, colors, image sizes, text used, etc.)

API documentation

To gain insights on the API documentation required for integration (e.g. API Overview Information, Interactive Documentation, Error Codes & Responses, Example Workflows, API SDKs, and Sample Code) [Click here](#) for documents regarding the full API integration, and [click here](#) for our affiliate widget documentation.

Ready to get started?

If you're ready to get started, please contact us with the following information so we can set you up with the relevant access:

- Company name
- Company number (if applicable)
- Company address (including post code)
- Contact name
- Contact telephone number
- Contact email address
- Website URL

General or technical questions

Contact us to learn more about the benefits of integrating our expansive content, powerful search technology, and rich metadata into your publishing tools, products, and services.

Thank you,

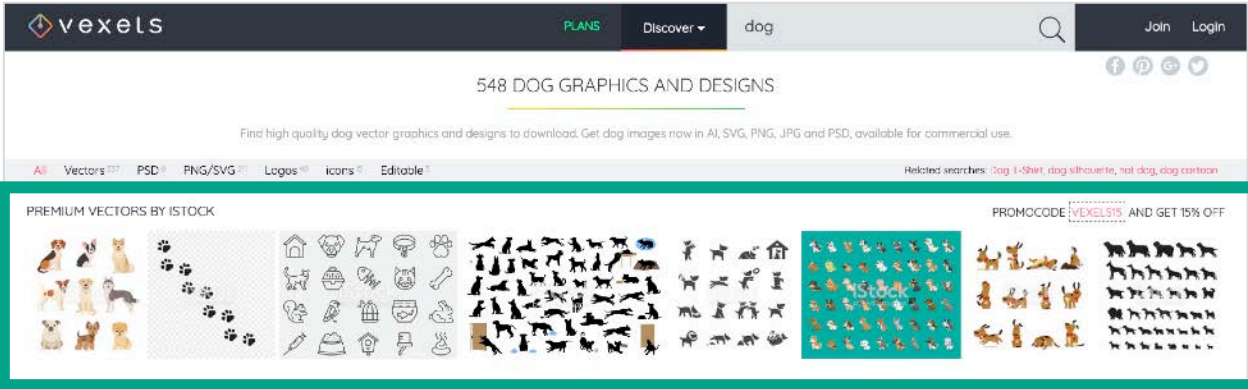

The iStock & Getty Images team | affiliates@gettyimages.com
